Location History helps you get useful information, such as commute predictions and improved search results, and more useful ads on and off Google. It does this by creating a private map of where you go with your signed-in devices.

To create this map, Google regularly obtains location data from devices for which you've turned on Location History. This data is collected even when you aren't using a specific Google product.

Location History

Location History helps you get useful information, such as commute predictions and improved search results, and more useful ads on and off Google. It does this by creating a private map of where you go with your signed-in devices.

To create this map, Google regularly obtains location data from devices for which you've turned on Location History. This data is collected even when you aren't using a specific Google product.

You're in control of the data we collect and how it's used.
